

Recently I've been trying to get my upcoming summer camp off the ground. My time has been put into filling summer staff positions, talking with Church leaders, directors, and educators. I have also been working with the many departments that make the camping experience work. Marketing, Food Service, Accommodations, Buildings and Grounds, and so much more!!

I have recently finished a 3 day conference for the Preteen leaders of Socal called "The eXchange". We brought preteen leaders from around Southern California together for 3 days. We had them teach each other their philosophies of ministry, their stories, teaching styles, curriculum, games, worship and so much more. My first conference was a hit!
